2017 Radionics Symposium Taught By the Masters

Schedule

Day 1

October 26, 2017 - 8AM to 5PM

7:15AM - 8AM

Registration

8AM - 8:30AM - **Dr. Ron Barone**

Introduction

8:30AM - 9:30AM - **Dr. Ron Barone**

The story of miasms begins with Samuel Hahnemann himself. As his experience of homeopathy brought him to understand its usefulness not only in acute but also in chronic disease, Hahnemann found that chronic diseases arise from a deep inner susceptibility that he called miasm. External causes of disease, he observed, can bear fruit only in the fertile ground of a miasmatic foundation, which passes by various means from person to person and creates the predisposition to particular kinds of disease states. Hahnemann identified three miasms, each with its own characteristics and disease propensities. In recent developments, there are 4 primary miasms and 4 recessive. We will learn how to deal with these with radionics.

Dr Darius Dinshah developed a system of using light as a direct application to the body for many diseases. A Pdf of this book will be supplied on the notes disc. I will demonstrate how to apply light in radionics as an application to the input well as well as a basic rate sheet for broadcasting.

Scott will be teaching about Magnetism and Polarity, which are the two most important things in life. He will be sharing Radionic and Dowsing technology which will lead to the understanding of how to analyze and correct imbalances in Magnetism. 9:15AM - 10:15AM - **Marty Lucas**

The raw energy of life can be called Chi. When there is ample Chi, the body is healthy, but not all Chi is the same. Its structure mirrors that of bio-photons. So there is some that helps the body to repair itself, there is some that supports replication and some that moves the body towards recycling. By managing the mixture of Chi in a subject we can support the repair and replication functions. Balancing Chi works at a more fundamental level than even Somatids! This work peels another layer from the 'onion'!

Marty Lucas, Every Advantage Ag, Urbandale, IA - Marty Lucas is a full-time Radionic Practitioner and teacher out of central Iowa. He is known for in-depth and far-reaching research into the fringes of radionic practice. Day 3 Continued

October 28, 2017 - 8AM to 5PM

10:30AM - 11:30AM - Robin Hermanson

A high-stress lifestyle coupled with improper eating habits can wreak havoc on delicate hormonal balance. Symptoms of hormonal imbalance may include PMS, osteoporosis, weight gain, altered sex drive, allergies, fibroids, urinary track infections, fatigue, anxiety, water retention, hair loss, even depression. Keeping hormones in balance results in healthy weight and optimal energy levels. How to measure your hormone levels, what hyper tonicity or hypo tonicity of what organs, what deficiencies of vitamins, what parasites and toxins contribute to imbalances and how to balance your hormones naturally will be discussed.

Robin Hermanson, Garretson, SD - Robin is a Professional Mechanical Engineer, Green Building Engineer and Certified Energy Manager. He is also a Certified Organic Farmer and has 360 acres. For 14 years, Robin has researched health and longevity through the Reams Biological Theory of Ionization. Robin is a veteran radionics operator helping people solve a wide range of health problems with alternative methods and detoxification.

1PM - 2:30PM - Dr. Linda Lancaster

Radiesthesia is the ability to detect vibrations of force fields emanating from minerals, plants, animals and humans. Every living cell is like an electric battery broadcasting a pulsing rhythm, creating a field. The ability to contact these fields is called Radiesthesia. Medical Radiesthesia is a method of discovering information from energy fields around the human being, animals and plants. The Parcels System utilizes a pendulum and a Determination Board to measure these frequencies. While the applications of Medical Radiesthesia are vast, Dr. Linda will teach an effective approach to taking care of yourself and your family through this system of Radionics.

Dr. Linda Lancaster - Dr. Linda is a Board Certified Naturopathic Physician and Homeopath. She has been in practice since 1981 and founded Light Harmonics Institute, an Energy Medicine Clinic and Educational Center based in Santa Fe, New Mexico and maintains clinics in Santa Fe and New York City. Her training includes Classical Homeopathy, Radionics, Medical Radiesthesia, Subtle Energy Healing, Nutrition, Herbal Medicine, Ayurveda and Detoxification Methods. Her health and cleansing programs have been offered to her patients for more than 30 years.

2:45PM - 3:45PM - Ed Kelly

Ed Kelly will share the work of KRT veteran Cathie Jordan and his step-mom Marianne Keeler-Kelly, who collaborated for years on advanced potentizing projects. Emphasis will be placed on delivering ideas, techniques, and lessons learned that can be applied directly to the projects of new and intermediate users. We will also discuss ways to utilize potentized materials for maximum impact and effectiveness.

Ed Kelly, Kelly Research Technologies - KRT (www.kellyresearchtech.com) has been delivering radionic instruments, equipment, and information to the world for 37 years. Sister company BETAR USA (www.betar.com) produces focused vibroacoustic sound therapy systems that allow riders to literally *feel* their favorite music - every note and drum beat - as a sonic energy massage that melts away physical pain, emotional stress, and/or mental anxiety. Ed Kelly took the leadership position in these firms following the untimely passage of his father, founder Peter J. Kelly, in 2004. Ed has been involved in radionics and the esoteric arts for his entire life, literally growing up around such giants as T. Galen Hieronymus, Thomas Bearden, Bob Beck, Bob Beutlich, and countless other inventors and researchers. Ed has a BS in Geology from the University of Georgia, an MBA from Kennesaw State University, and served the nation in the U.S. Marines.
