2019 RADIONICS SYMPOSIUM

Taught By The Masters

Symposium Schedule

DAY 1

FRIDAY, OCTOBER 24, 2019 - 8AM TO 5PM

7:15AM - 8AM

Registration

8AM - 8:30AM - DR. RON BARONE

Introduction

8:30AM - 9:30AM – SUE KELLER

The HUMAN side of Radionics. Where you are on the vibrational scale and how it affects your thoughts, words, actions and the ability to help yourself and individuals. Identifying how an unhealthy ego-state affects the full potential for ourselves and others. How working to remove energy blocks gets us one step closer to our true God-given identity and increases our Radionic powers.

Sue Keller enjoyed a successful 30+ year Corporate career retiring in 2008. She spent many years in process improvement; leaning out processes, eliminating bottlenecks, creating efficient work flow which lead to cost and time savings. In 2015, due to health challenges, Sue personally experienced what was possible in regards to Radionics and started to embrace her own Radionic journey in order to help others.

9:45AM - 11:15AM – STEPHEN QUONG

Fine-Tuning the Ultimate Radionics Instrument—You! Discussion to include Nootropic Nutritional Supplements to Enhance Cognitive Processes, Simple Yogic Techniques and Energetic Tools for Getting Centered and Self-Clearing, How to Combine Finger-Style Muscle Testing with Dial-Based Scanning for Rates, Testing Your Level of Harmony with Your Radionics Instrument, Clearing the Witness Well with Violet Light (visualized, LED or laser, Energetic Activation of the Pineal Gland for Enhanced Intuition and Discriminative Intellect, And much more...

Stephen Quong has been practicing and teaching dowsing, radionics, and various forms of energy healing since 1972. He was a guest speaker at the 2017 and 2018 Radionics Symposiums, and a guest speaker at the 2018 US Psychotronics Association Annual Conference. He is also a world renown Vedic Astrologer and senior level instructor for Qi-Mag Feng Shui and Tao Geomancy. A complete bio is available at: jyotisha.com/bio.html

12:45PM - 2:15PM, 2:30PM – 4:00PM – HUGH LOVEL

Soil and Crops: How Nature Works. With radionics we have tools that work best when we find the cause behind the cause behind the cause. Lovel teaches how nature works to generate life and fertility in soils as well as vigor in crops. His first session points out the key components, common to all farms, that go ignored and even are opposed while we return again and again to fertilizers that have been applied to soils for over 100 years along with steadily declining fertility. The most important changes we have to make are in our own understanding of how nature works. Session two will deal with remedies and possibilities that we can explore and how radionics can help focus the forces of nature in a provident direction. This will include ameliorating droughts and floods.

2019 RADIONICS SYMPOSIUM

Taught By The Masters

Hugh Lovel is a farmer and an international consultant to dairy farms, graziers, broadacre grain growers and fruit and vegetable producers. As a multidisciplinary scientist, Hugh has introduced comprehensive soil testing using both the Albrecht approach and a total acid digest test that more clearly reveals what is actually present in soils. Above all he has been a leading pioneer of the new science of Quantum Agriculture. Hugh Lovel is the author of A Biodynamic Farm for Growing Wholesome Food and Quantum Agriculture: Biodynamics and Beyond. He is the original designer of the Field Broadcaster quantum technology and the Quantum Radionic Analyser. His articles appear in "Acres USA", related organic farming periodicals such as "Acres Australia" and biodynamic journals around the world. Initially, Hugh gained 30 years of broad experience in biodynamic farming while operating a market garden farm and the first CSA in Georgia. His farm was home to the annual South-East Biodynamic Conferences for 12 years. Hugh migrated to Australia in 2005 to teach, consult and write. Hugh served for 6 years on the national board of Biodynamic Agriculture Australia. He and his wife Shabari Bird are the founders of Quantum Agriculture Consultancy and live in Australia and the US.

4:15PM – 5:00PM – **BRIAN BESCO**

Heart-based Consciousness and the Quantum Field. Learn to utilize consciousness and intention to influence the quantum field of your radionic transmission. We will begin with simple journey work, and learn how this influences our energetic and physical realities. We will then add this to the quantum field of Radionics, to create results that are greater than the sum. We will also discuss Tensor Technology as a supplement to the radionic field.

Brian Besco is the leader in research and development of Tensor Technologies. He considers the Tensor tools to be a combination of the physical sciences and spiritual technologies. He is a published author and manufacturer of the Tensor tools, and spoke at the 2013 Tesla Technology Convention on the Tensor Fields. Brian has also created several new modalities of subtle energy work, and teaches workshops around the world.

DAY 2

FRIDAY, OCTOBER 25, 2019 - 8AM TO 8:30PM

8:00AM - 9:30AM, 9:45AM – 11:15AM – **LUTIE LARSEN**

Most Used Rates at Little Farm Research and Why. Topics covered will include Energy Soil Classification and Support, LFR Soil Programming/Balance and monitor technique, Plant/Crop cycle support, Seed Specifics, Nutrient testing (nutrient profile check of specific crops), and the Bovis Scale (activated photon scale).

Lutie Larsen was first introduced to Radionic instrumentation and technique in 1975. Over the years she has taught students, served on the Board of Directors of the USPA and maintained a steady program at her farm, Little Farm Research. She and her daughter Katherine published a bi monthly newsletter "The Radionic Homestead Report" from 1985-2011. More recently she published "Tips and Techniques for Radionic Farmers".

12:45PM - 1:45PM – **MARTY LUCAS**

Causes are Blocks in Energy. Addressing issues allopathically is a great way to handle symptoms. When you wish to solve the problem, then you must deal with the cause. Removing energy blocks allows the body to heal itself. Those blocks can be physical, emotional and/or spiritual. I will be presenting how I use what many consider as a simple emotion to clear 80% of these blocks.

Marty Lucas (Every Advantage Ag, Urbandale, IA) is a full-time Radionic Practitioner and teacher out of central Iowa. He is known for in-depth and far-reaching research into the fringes of radionic practice. He is able to present complex scientific and esoteric subjects into easy to understand protocols and procedures.

8:30AM - 9:30AM– **TIM LIPPERT**

Why I Do Radionics. The path of life is often filled with pot-holes, troubles, tripping stones, and unseen dangers. Remember the movies / comics when you were young of the X-ray glasses that allowed people to see things hidden? Radionics is like having those glasses with Super Powers. Tim will share examples of how Radionics has solved real world problems.

Tim Lippert has done Radionic, Naturopathic, and Alternative Medical work for clients in over 25 states, Belize, Mexico, Canada, Australia, Great Britain, and the Philippines. He owns and operates one of the most elaborate Radionics labs in North America. His specialties include agricultural and environmental consulting, geo-biology, water treatment, mold & myco-toxins, Lyme Disease, sleep apnea, and spiritual issues.

9:45AM - 11:15AM– **DAN MANGUM**

Color, Light, and Radionics. Colors are some of the most powerful aids to radionics work, and there is more to the nature of color and light than most people are aware of. An expanded knowledge of this can only help us be more successful in radionics and related methodologies. This presentation will cover the Dinshah Spectro-Chrome healing system (and how to use it radionically, including a new rate sheet). The use and properties of the Dinshah colors and cathedral glass as reagents. Goethes theory of color and light vs Newtons. An explanation and demonstration of some of my color and light research.

Dan Mangum is a radionic researcher who uses radionics to maintain a garden, greenhouse, fruit and nut trees, honeybees, a handful of horses and shetland sheep, and his dogs. He also makes and sells reagents, and an external antenna/rubplate of his own design. His background includes studying mysticism, magic, and world religions, rife machines, orgone accumulators, homeopathy, biodynamics, and an organic diet. Dan is a licensed electrician who occasionally installs off grid solar power and lives off grid himself.

12:45PM - 2:15PM– **AIMEE WHALEN AND ED KELLY**

Group Consciousness Experiment. A live experiment using Radionic techniques, therapeutic techniques and positive thought projection. Measuring outcomes, and making a reagent for all in class to be involved. "Feel the transformation for all."

Aimee Whalen has been said to be a polymath of the health arts, specializing in both biofeedback and Cranio-Sacral modes of therapy. She is a registered nurse for over 38 years. She has fulfilled the qualifying requirements for a degree of Master of Medical Radiesthesia from Light Harmonics founded by Dr. Linda Lancaster. With over thirty years of practice, she skillfully combines scientific rigor with intuitive sensitivity to hone in on the patient's body-mind as a whole ecosystem of organs and energies in need of revisiting, renewal and compassionate care.

Ed Kelly is President of Kelly Research Technologies, a 40 year community leader in the design and manufacturer of radionic instruments and related technologies. Ed is a uniquely qualified instructor with a lifetime of experience building instruments, working with senior instructors, and writing about this amazing field. Ed is the son of KRT founder Peter J. Kelly and a member of the Board of Directors of the U.S. Psychotronics Association (USPA).
